

*For Immediate Release*

## Oeuf Introduces New Furniture Styles

*Brooklyn, NY – January 2016 – Oeuf*

Oeuf is expanding its storage options with the Vertical Mini Library, the ML Nightstand, the Merlin Wardrobe and the classic Merlin Dresser in a fresh all-white finish.

“Proper storage is so important to keeping a home calm and collected, but you want pieces that look as good as they are useful,” says Sophie Demenge, the co-founder of Oeuf with her husband Michael Ryan. “We wanted to provide more options in terms of color and size, so everyone can find a piece that works for their home.”

The Vertical Mini Library is a perfect blend of storage and style. The tall yet compact design is sized to maximize floor space with spacious shelves and cubbies to store and display books, toys and other treasured items. Children will love its fun design and new, taller height, while parents will love its modern look and well-designed structure.

The ML Night Stand is a charming match to any child’s bed. Inspired by the contemporary design of the Mini Library, the nightstand provides stylish yet practical storage for children. Its door creates an enclosed cubby that makes it fun for kids to store books and treasures and its roomy surface will keep nighttime essentials within reach.

The Merlin Wardrobe is a brand new addition to the Merlin collection. It has the same style as the dressers, but is designed for those who need more storage room. The wardrobe comes with a hanging rail and 6 shelves, which are adjustable for maximum flexibility. And just like the Merlin dresser,

several different bases are available to match Oeuf’s furniture collections.

Debuting in an all-white color is the Merlin Dresser. The sleek design of the dresser in white will brighten up your nursery or bedroom and make it feel more spacious, while creating a calming and serene atmosphere for little ones. Created with clean lines and quality construction, both the Merlin 3 Drawer and Merlin 6 Drawer Dressers perfectly fit with any Oeuf furniture collection. Built to last and grow with your child, the white finish makes it easy to style the dresser into different rooms and decor themes for years to come.

Oeuf’s mission to “be good” extends beyond just the looks and usefulness of their products. Oeuf furniture is made in the EU, so it meets their strict environmental and labor standards. Specifically, the furniture is produced in Latvia, providing Oeuf with easy access to sustainable raw materials, skilled labor, and a long, proud woodworking tradition - all things that are important for making the best quality furniture and being good to the world. Oeuf products are made from the highest quality wood products and with non-toxic finishes free from VOC health hazards.

**Price:** Night Stand €190, Vertical Mini Library €500, Merlin Wardrobe €975, White 3 Drawer Dresser €800, White 6 Drawer Dresser €1070 (VAT not included)
