## **The RIVER Twin Bed: Modern, kid-friendly style in a space-saving design**

*Brooklyn, NY – March 2015 – Oeuf*

The River Twin Bed's clean lines make it a perfect fit with any kids' style – and parents will love its space-saving design. A little bench at the foot of the bed provides a spot for kids to relax and read, or doubles as storage for books and toys.

Sleepovers are made simple with the trundle, which tucks neatly away and can be used to store blankets and clothes when friends aren't around. For the littlest ones, a security rail can easily be added to either side of the bed.

Solid Baltic birch plywood features safely rounded corners and non-toxic, water-based finishes free of VOC health hazards. Fits a standard twin mattress. Trundle and security rail sold separately. Made in Europe.

Available now.
